

Module 4, Touchpoint 1

Role play activity

This is a VHND scene.

- ANMs are meant to conduct the VHND and give the immunization. This time, the ANM is absent. Because of this, the VHND is not being able to be conducted properly.
- ANM's role in VHND is to undertake RCH activities. However, because the turnout is low, the vaccines and medicines etc., are not being utilised and the ANC numbers are very low.
- MLHP is meant to report the turnout to the PHC MO and is reprimanded because the turnout is below expectation and targets haven't been achieved.

Make the team do this role play.

ASHA – I have mobilized so many women to come to the camp and bring their children. But because the ANM is not here, we are not able to conduct the VHND well. No vaccine is being dispensed, and this is affecting my reputation in the village.

MLHP – That is true. What answer will I give to the PHC MO? All the drugs and vaccines here but cannot be given. We need to report that we have successfully conducted the VHND but because we are not able to give the vaccines. Already, the villagers have so many myths attached to vaccines and now that some of them have come, we will not be able to give it to their children.

Discussion: What is the effect of one cadre/ team member not undertaking their task in the team? Is there a way the team can devise to overcome the absence of one team member so that workflow isn't affected?

lade VHND ni gimin.

- ANM-rangara VHND aro immunization -ko on.a nanga. lachangde ANM dongja. Uni a.sel, VHND ko name dakna manjaha.
- VHND-ni somoio, ANM-ni kam-ara RCH ko dakanio jako ra.ani. Indimangba, manderang komiani gimin, bijirang aro samrang gimikom bon.e jakkalja aro an.no donggipa ma.giparangba bilongen komia.
